PREFACE

With the publication of the present section (IV) the revised edition of the Catalogue of Sanskrit Books in the India Office Library is brought to completion. Section I was published in 1938, Section II in 1951, and Section III in 1953. As explained in the Preface to Section I, the Catalogue covers all Sanskrit and Prakrit texts (together with translations of these into European languages) received in the Library to 1932, with the addition of some for the years 1933-1935 which it was found possible to include while the printing of Section I was in progress. A supplementary catalogue of the very large number of accessions of the past quarter-of-a-century is now being compiled, and will, it is hoped, eventually be printed.
